

The Vona guardrail is a refined and delicate model that will charm you with its three stainless steel cables and its glass or decorative base. Its slim, modern lines ensure security and solidity. Its 44.2 laminated glass provides maximum strength thanks to the different layers held together by a PVB filter, which binds the pieces of glass together in the event of glass breakage. You can also choose a sheet base with laser decoration from our wide range of designs.

+ 300 COLORS AT NO EXTRA COST
